

Personal Communication Devices and Social Media - Staff*

Staff possession or use of personal communication devices on public charter school property, in public charter school facilities during the work day and while the staff is on duty in attendance at public charter school-sponsored activities may be permitted subject to the limitations set forth in this policy and consistent with any additional school rules as may be established by the administrator. At no time, whether on duty or off duty, will a personal communication device be used in a manner that interferes with staff duty and responsibility for the supervision of students.

A “personal communication device” is a device, not issued by the public charter school, which emits an audible signal, vibrates, displays a message or otherwise summons or delivers a communication to the possessor of the device. These devices include, but are not limited to, walkie talkies, long- or short-range portable radios, portable scanning devices, cellular telephones, pagers, personal digital assistants (PDAs), laptop computers and similar devices with wireless capability. This also includes other digital audio and video devices such as, but not limited to, iPods, radios and TV.

Personal cellular telephones/pagers and other digital audio and video devices shall be silenced during instructional or class time, while on duty or at any other time where such use of the device would cause a disruption of school activities or interfere with work assignment. Cellular telephones which have the capability to take photographs or video shall not be used for such purposes while on public charter school property or while a staff member is on duty in public charter school-sponsored activities, unless as expressly authorized by the administrator or designee. Laptop computers and PDAs brought to school will be restricted to classroom or instructional-related activities only. The public charter school will not be liable for loss or damage to personal communication devices brought to public charter school property and public charter school-sponsored activities.

Staff members, while on duty and off duty, will utilize social network sites (e.g., Facebook, MySpace and Twitter), public websites and blogs judiciously by not posting confidential information about students, staff or public charter school business. Staff members, while on duty and off duty, will treat fellow employees, students and the public with respect while posting in order to prevent substantial disruption in school. Communication with students using personal communication devices will be appropriate and professional. Communication with students using personal communication devices regarding non-school related matters is prohibited during work hours and strongly discouraged at all other times. If communicating with students electronically regarding school-related matters, staff should use public charter school e-mail using mailing lists to a group of students rather than individual students. Texting students during work hours, unless the text is school related, is prohibited. Texting students while off duty is strongly discouraged.

Exceptions to the prohibitions set forth in this policy may be made for health, safety or emergency reasons with administrator or designee approval.

Staff is subject to disciplinary action up to and including dismissal for using a personal communication device in any manner that is illegal or violates the terms of this policy. Staff actions on social network sites, public websites, blogs and other social media, while on or off duty, which disrupt the school environment, are subject to disciplinary action up to and including dismissal. A “disruption” for purposes of this policy includes but is not limited to, one or more parent threatens to remove their children from a particular class or particular school, actual withdrawal of a student or students from a particular class or particular school, and/or a threatened or actual negative impact on the learning environment. The taking, disseminating, transferring or sharing of obscene, pornographic or otherwise illegal images or photographs, whether by electronic data transfer or otherwise (commonly called texting, sexting, emailing etc.) may constitute a crime under state and/or federal law. Any person taking, disseminating, transferring or sharing obscene, pornographic or otherwise illegal images or photographs, will be reported to law enforcement and/or other appropriate state or federal agencies.

The administrator shall ensure that this policy is available to all employees.

END OF POLICY
